

# **Stop Ameren's \$247 million rate hike plan!**

Dear ICC Commissioners:

Please block Ameren's \$247 million rate-hike plan. It was only in 2006 that the company was granted a delivery rate hike of about \$50 million, and just last year Ameren got its hands slapped for a now-defunct "reverse-auction" power-pricing system that sparked skyrocketing electric bills. Now, Ameren's back for more.

I cannot afford rate hikes of this magnitude, especially as Ameren turns in one profitable quarter after another. Please take a stand for consumers and reject Ameren's exorbitant rate-hike plan.
