

# Natural Gas Offers: Nicor Territory

Below is the price per therm you will pay Nicor for natural gas. You are allowed to choose another company (also known as an “alternative retail gas supplier,” or “ARGS”) to supply you with natural gas. However, you should know it is illegal for Nicor to make a profit off of what it charges you for gas. Alternative suppliers, on the other hand, can charge whatever they want. *At this time, Nicor is likely your best bet.*

<b>Nicor Gas</b> Regulated Utility	<b>Price to Compare for October 2020:</b> <b>28¢ per therm variable rate</b> (Note: On your bill it's 0.28)
---------------------------------------	---

## Alternative Natural Gas Offers as of October 7, 2020

Beware that offers can change frequently, even daily. Call a company to verify a rate, to get a plan in writing, and to find out what happens to that plan after the initial term. The rates only reflect the price of natural gas. Nicor Gas will continue to bill you for the cost of delivering gas to your home.
