About the Energy Savers Grant

This grant provides weatherization services to certified bungalow owners in the City of Chicago.

Weatherization services may include:

• Sealing leaks and gaps in the attic, basement and sidewalls;
• Attic insulation;
• Weather stripping around windows and doors.

To qualify for the Energy Savers Grant, you need the following:

• Household income must be at or below 80 percent of the Area Median Income (AMI). Please refer to the chart to the right for more details. (No income verification documents are required.)
• A vintage family home built more than 50 years ago
• Located in the City of Chicago
• Owner occupied
• You have not received a previous grant from the CBA

Note: If your application is preliminarily approved, a participating weatherization contractor will contact you to schedule an energy assessment of your bungalow. The Chicago Bungalow Association is concerned about your health and safety. If health and safety issues are discovered during the assessment, they may ask that you resolve the issues before work can be done.

For any questions and/or concerns about the Energy Savers Grant, contact:

Emily Wallrath Schmidt, Preservation Program Manager
