

Nicor Efficiency Programs

FACT SHEET

October 2023

Home Energy Assessment

At no cost to you, an Energy Advisor will walk through your home (buildings with 2 units or less) to suggest improvements and install money-saving products. Learn more at www.nicorgas.com/residential/ways-to-save/free-products-and-services. There is a virtual option as well.

- Call 855-660-9378 or [go online](#) to schedule an assessment.
- During the assessment, the energy advisor will install free energy efficient products.
- If you follow the suggested improvements, choose a contractor to perform the work and assist with your rebate.

Homeowners can receive:

- Programmable thermostat
- Faucet aerators for your kitchen and bath
- WaterSense® showerheads
- Hot water pipe insulation
- Select LEDs (ComEd customers only)
- Advanced Power Strips at a discount
- Select smart thermostats at a discount

Multifamily Home Energy Assessment

If you own a multi-family building (three or more units), you can receive a free multi-family energy assessment.

- Call 855-660-9378 or [go online](#) to schedule an assessment.
- Schedule a time to receive free energy saving products.
- If you follow the suggested improvements, choose a contractor to perform the work and assist with your rebate.

Multi-family customers may receive:

- Faucet aerators for your kitchen(s) and bathroom(s)
- Water-saving showerheads
- Hot water pipe insulation
- Pre-rinse spray valves (common area only)
- Programmable thermostat (in-units only)
- ENERGY STAR® certified LEDs (in-units only)

Free Savings Kits

Nicor Gas customers can order a free water-saving kit [online](#), which includes:

- Low-flow showerheads
- Shower timer
- Bathroom faucet aerators
- Dual-spray kitchen faucet aerator
- Plumber's tape

The utility also offers a free weatherization kit that can be ordered [online](#), which includes:

- 12-pack of outlet and switch foam gasket
- 17' roll of closed cell foam tape weatherstripping
- 17' roll of V-seal type weatherstripping
- Self-adhesive door sweep
- 30' roll of rope caulk

Note: Free energy-saving kit will be mailed to your home for self-installation. If you choose to have the free assessment done, the contractor can install the products.

Heating and Cooling Rebates

Rebates are available for energy efficiency improvements to all current residential Nicor Gas customers.

Program/Installation Requirements

- Find a professional contractor to install qualifying products or complete home improvements, visit www.nicorgas.com/residential/find-a-contractor
- Apply within 90 days of installation or by January 31, whichever comes first.
- For air sealing and insulation work, you must use an approved contractor in order to receive a rebate.

Download and mail the completed rebate application or apply online at apply.nicorgasrebates.com.
